Who We Are

Our pedigree is a medical family and for three generations we have been caring for others from one continent to another. We humbly provide comfort for those who need it.

We are licensed to serve medicaid and self paying consumers.

Who is eligible?

Any person who is in need of continuing care in their homes for the purpose of minimizing the effects of illness, injury/accident or disability.

Services are provided to all persons regardless, of race, age, sex, creed, national origin, handicap, marital status and religion. We provide services to meet your cultural needs.

Why choose us?

Our motto is that "Love heals." We train our staff that taking care of others is not just a job or a task, but an opportunity to share our humanity with others. People heal better and/or feel better when they know that the person or persons looking after them really care about them in their actions and body language. We put that at the top of our list when hiring professionals who will work with our clients. We also focus on our logistics to ensure our clients are always cared for properly.

Get Paid To Care For Your Loved One

Financial Compensation For Family Caregivers. How it works

To make the decision to bring help into your home can be the most difficult and important decision you can make. But, if the home caregiver is a family member or close friend, the decision becomes very easy to make. When someone you are familiar with is helping you in your home, it brings a special comfort and peace of mind to the client and their family. Concerns regarding safety, dependability and quality of care are diminished, leaving everyone with a better quality of life.

We can provide the training required to the caregiver of your choice to become a certified caregiver and be financially compensated for their time (eligibility will be determined through certain government programs).

Call Anastasia Care Services for a free in-home consultation with one of our medical personnel to help you make an informed decision on how to move forward with your careplan.

The name Anastasia originates with greek etymology and means "resurrection"

How it works

It usually starts with a question? "How can I help my mom stay at home?" "Can I care for my father and still make an income?"

There are different questions, but we are set up to answer them with our home care solutions.

If you qualify, there are state health programs that will help to keep you or your family member independently at home. If you have other means to pay, we will still help to fashion a care solution within the home to make you or your loved one as comfortable as possible

Where we serve

We serve the following Pennsylvania Counties: Montgomery, Bucks, Berks, North Hampton, Delaware, Chester, Philadelphia and Lehigh.

Our Caregivers

We are affiliated with a Home Care Registry, so you can be assured of adequately trained staff, competency tested and well managed and supervised at all times.

Our information packet shows you the policies we ensure our staff adhere to at all times.

We have bi-lingual services for most major languages in the state.
